PR10 BIFOLDING DOORS

By Prime Aluminium

Aluminium bifolding doors create a visually stunning addition to your home and can add huge value.

Class-leading design features set the PR10 bifolding door aside from the competition – Thermal performance and slim profile sections to minimise the visible framework and maximise the glass area, are the key design criteria.

Engineering grade hardware, allows for silky smooth opening and closing operation – without having to pay a premium price.

What's more, all our doors come with a 10-year manufacturers guarantee for your complete peace of mind.

Why choose Aluminium?

Aluminium is extremely durable, more hard wearing than other materials. You'll be able to enjoy your aluminium doors for not only years but decades to come as their incredibly resistant to the elements.

Aluminium doors are among the best-insulated on the market, owing to thermal breaks.

Aluminium is an incredibly strong material, therefore providing a high level of security.

Low maintenance.

Thermally Efficient.

Aesthetically Pleasing

LOW MAINTENANCE

Practically maintenance-free, aluminium doors are strong, durable and highly corrosion-resistant. Unlike timber, they don't need painting or staining to keep them weather-proof, and they won't rust or corrode. They will also never rot, peel or flake.

THERMAL EFFICIENCY

The PR10 Bifolding door can achieve U values of 1.1 W/m²K.

SLIM SIGHTLINES

70mm slim-line, thermally broken aluminium profiles.

HARDWARE

Matching handles as standard.
